

Rebound

Essential Micro Nutrition with seaweed liquid
for All Crops

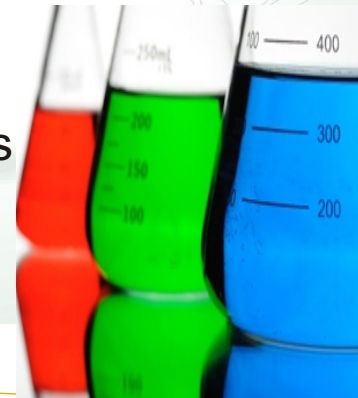

Rebound is naturally chelated with essential micro-nutrients and other plant nutrients.

Rebound provides six essential micro-nutrients (Zn, Fe, Mn, Cu, B, Mo) together in optimum dose to crops.

Rebound supports in improving plant growth, yield and quality of the produce.

Rebound Free from chloride, sodium and other harmful elements for plants

Dosage: 1.5-2ml of rebound /liters of water for All crops

Prevents Micro nutrition Deficiencies
Boosting Crop yield
